

Map of the British Isles showing sampling locations and sample sizes (n) for four categories:

- nonapprovK (Red dots)
- truezerodetect (Blue dots)
- repl1pos (Green dots)
- repl2pos (Dark green dots)

Sample sizes (n) are indicated next to each point. The map shows a high density of samples in the central and eastern regions of the British Isles, with some samples in the north and west. The legend indicates that red dots represent 'nonapprovK', blue dots represent 'truezerodetect', green dots represent 'repl1pos', and dark green dots represent 'repl2pos'.
