

Map of the British Isles showing sampling locations and results. The legend indicates four categories:

- nonapprovK (Red dot)
- truezerodetect (Blue dot)
- repl1pos (Green dot)
- repl2pos (Dark Green dot)

Sampling locations are marked with dots and labeled with sample size 'n':

- nonapprovK (Red dots):** Numerous locations across the British Isles, including the Shetland Islands, Orkney Islands, Hebrides, and various locations in Scotland, Wales, and England. Sample sizes range from n=1 to n=4.
- truezerodetect (Blue dots):** Located in the Shetland Islands, Orkney Islands, and various locations in Scotland, Wales, and England. Sample sizes range from n=1 to n=12.
- repl1pos (Green dots):** One location in Wales with n=1.
- repl2pos (Dark Green dots):** One location in Ireland with n=2.
